

Essential Floor Care

Demo Stories

Pantheon Saves Time, Money and Labor!

The popularity of concrete floors in retail has brought about the need for a change in the products used to protect these floors.

Case in Point:

A Tennessee grocery store was using a regular floor finish on the concrete floors throughout their store. Because this finish had issues adhering to the concrete and the durability was just not there, they were forced to strip and recoat the floor quite often - at least 3 times per year.

In steps Essential Industries with Pantheon Concrete Sealer – a durable sealer for interior concrete floors. Pantheon applies easily and dries fast. It is a single-part system with excellent stain and water resistance.

The Proof is in the Pictures:

The competitive product shattered and looked terrible on the floor while Pantheon Concrete Sealer looks great. In addition to its excellent appearance and stain resistance, Pantheon showed great durability and adhesion. The customer only needs to scrub and recoat once per year now!

Imagine all the money saved with the reduction of labor alone!
