

# Essential Floor Care

## Demo Stories

## Sport Kote® PC leaves a great impression!

Finding time for a demo at a school is never an easy task. When an opportunity came up at a North Georgia high school on a Friday night when the kids were not in school and there were no after school activities, we jumped on it.

We worked with the school ahead of time to help ensure that everything we needed was in place and the proper equipment and supplies were on hand. Because of this everything went smoothly with no time wasted. We were able to have the floor prepped and two coats of Sport Kote PC finish laid down in just 4 hours.

**The staff was extremely happy with the end result! They loved the fact that it went so fast and we didn't create a big dusty mess that would need to be cleaned up later.**

**There's always time with Sport Kote PC!**
