### Products and Equipment

## Concrete Floor Preparation

Choose an option below:

**Note:** Prep methods and equipment vary depending on condition, type of floor, etc. Use your preferred prep method, if one already exists.

No Grind Method

Grind and Clean Method

## Pantheon Application

Choose an option below:

Flat Mop Method  
(for highly polished or previously coated floors)

Weighted T-Bar Method  
(for extra rough or porous floors)

## Polishing After Application (optional)

## PANTHEON TESTIMONIAL

"We have been using Pantheon Concrete Sealer for two years and the results have been spectacular! We have applied it to polished concrete, concrete that had densifier on it and concrete that we had no idea what was on it; it worked perfectly every time.

We are most impressed with its durability and resistance to scuffing and scratching. The fact that we don't have to burnish it really cuts down on labor."
